

Albany botanist's art featured in book

THE WA Museum Albany buzzed with activity last Wednesday for the launch of a Fremantle Press book with strong links to the region.

Two With Nature combines the poetry of Perth writer and Edith Cowan University Postdoctoral

Research Fellow John Ryan with detailed illustrations by Albany botanist and artist Ellen Hickman.

A strong crowd turned out to the launch, after which the hardcover coffee table book was available for sale.

The book brings together both

science and creativity, words and pictures in an intriguing and educational way, focusing on native flora and fauna.

Two With Nature is available from good bookstores or by visiting www.fremantlepress.com.au.
